

Position Opening: .NET Software Developer

Bulldog Media Group, Inc. is a privately-owned company with corporate offices in Madison, SD and is currently accepting applications for the above-mentioned position.

While the responsibilities of this role are further defined in the scope and dimensions, the incumbent must primarily have experience and an interest in web development.

We are looking for a gifted individual to develop software applications for internal company operations.

Scope / Dimensions of Role:

The .NET Software Developer will be responsible for developing, maintaining, and updating company software applications using the .NET framework

- Design, develop, debug, and maintain company software applications using the .NET framework
- Write technical documentation for the software you develop
- Solve complex design issues
- Implement professional coding practices
- Work closely with development, quality assurance, marketing and management staff to deliver software requirements

Skills and Qualifications:

- Understanding of C#, ADO.NET, SQL Server and T-SQL
- Knowledge of the .NET framework
- Knowledge of object oriented design and programming best practices
- Knowledge of relational database design
- Familiar with Visual Studio .NET
- Experience with user interface design
- Good communications skills and an ability to work closely with others
- Professional work ethic
